ABOUT ME

I live in Chisinau, Republic of Moldova🇲🇩

I am a Linux, Open Source and web-technology enthusiast.

Also I am a self-taught person, who independently caught his way into IT. Many thanks for REG.RU, they believed in me and let me grow in this sphere.

I have a small freelance expirience in 2011-2012(frontend/backend/content management for CMS-based websites).

From 2013 to 2016 I have worked as a Technical Support Engineer(Level 2) in REG.RU company.

In 2016 I'm finally grew up to Linux System Administrator position. And I was a good Linux System Administrator in Linux Hosting team up to end of October 2022.

My English level is Upper Intermediate (B2) and I am studying it now.

My strengths :

- responsible;
- I manage myself well;
- I like to documenting work procedures with some nuances to save time in the future(I like to write short notes).

EDUCATION

accountant

2011 - 2012

IFM "Calea Fericirii — The way of blessings"

I am an accountant by my education, but not in my heart(I love IT). When I was study in in this awesome place, I learned some awesome things:

- 10 fingers typing;
- basic English(10 month course and somethere bellow A2 level);
- advanced proficiency of Office Software on the course for clerks and office workers.

EXPERIENCES

Linux System Administrator

2016 - 2022

REG.RU, Chisinau

Monitoring and ensuring the smooth operation of hosting servers and VPS, as well as solving the problems of our clients related to the use of hosting and related services.

Technical Support Engineer

2013 - 2016

REG.RU, Chisinau

My work responsibilities include dialogue with the client and diagnosing the problems that arise during the work of the customer's services, analyzing the problems found, as well as taking the necessary measures to resolve them, or providing appropriate recommendations to the client to solve them.

SKILLS & PROFICIENCY

The info on graphics demonstrate only my opinion about my level of the knowledge in this spheres. I always think that I'm know too little, because I want to know much more...

Bash

Python
